

Date 14.8.18, via conference call

Present: Ellen Brimble (EB), Freija Glansdorp (FG), Rona Frame (RF)

Agenda

Stallion serving AI records and Autumn event updates

- Due to AI now having been used in the UK, the forms need to be updated on the website and AI should be mentioned on the stallion serving record. This was discussed at length and everyone agreed the vet should confirm that mare x was inseminated with the semen of stallion y, as the stallion owner cannot verify it. FG to amend the record, as there will be the first UK born foal this year, conceived by AI. In the future more foals might/will follow.
- EB gave an update on the HB course – the waiting list consists of 6 possible participants with horse from the North/Scotland, 11 possible participants with horse from the South. 3 non-members have expressed an interest to come as spectator which is great – we might find more society members through interesting course offers. Final venue to be decided in September when final numbers are in.
