

Date 25.6.18, via conference call

Present: Ellen Brimble (EB), Freija Glansdorp (FG), Jemimah Adams (JA), Rona Frame (RF)

Agenda

Autumn event and updates

- Based on comments in the IHSGB survey, EB suggested a different offer for the breeding event, this time a Natural Horsemanship course with Helmut Bramesfeld in order to attract a larger number of participants. It fits in with breeding, as it helps people to handle/educate their young horses in an effective way to prepare them for their future as riding horses. Also people with ridden horses (sport, leisure) can benefit from NH. It was agreed to start a waiting list to find out in which area the course should be held. This will be advertised in the next Sleipnir.
- There is a Worldfengur seminar for registrars in October (Berlin) and the breeding team felt it is important for FG to attend, especially as we are a breeding society and GDPR rules require changes in Worldfengur that have not yet been made.
- FG/EB keep chasing JB in Iceland for his confirmation on compliance, WF seminar visit to be discussed at the next Trustees call.
- Vet certificate has been updated by FG
