Stallion's Name	Stallion's FEIF ID

Owner's signature:

Date:

Icelandic Horse Society of Great Britain

STALLION SERVING RECORD 2025

NOTES ON GELDED HORSES

If your horse has been castrated, we will need to be made aware of this and the passport needs to be updated, as well as our database. The castration can be recorded in the passport by your vet; for passports issued after 1 January 2016 this should be done in Section I Part C.

If the castration has been recorded in the passport by the vet with the vet's stamp/signature, it is acceptable to email a scan/photo of the relevant page to the Studbook Registrar.

If the vet has not indicated the castration in the passport, the physical passport should be sent in to the Studbook Registrar together with evidence of the castration from the vet, and we can update the passport. There is no charge for this service. The evidence of the castration from the vet can for example be a letter from the vet confirming that the horse is gelded, a receipt from the vet for a castration operation, or other documentation where the vet has confirmed that the horse is a gelding and signed the document, e.g. for a vetting.
